Refunds

Please check the status at least 1 week after you have provided your signed e-file forms to us. This will allow time for the IRS and GA to have your information available online.

New e-file forms are provided to you with your tax returns for each tax year and are processed in the order in which they are received once signed by you or both parties (if filing jointly) and provided to us.

To access your refund status, you will be asked a few questions that show on your Individual Tax Returns.

Please have your Individual (personal) Tax Returns file or original copy ready when checking for refund status.
